EXPERIENCE

Roburna Labs – Frontend Engineer

March 2025 - PRESENT

- Built UIs for 2 NFT marketplaces, handling listing, minting, and wallet connection flows.
- Developed the front-end for a Web3 social media platform with on-chain features integrated into the user experience.
- Built a validator dashboard for monitoring blockchain node activity and performance metrics.
- Delivered a staff management platform and an AI-powered fashion site among other internal products.

RexC4 – Chief Technology Officer

October 2024 - PRESENT

- Led technical direction across all RexC4 products as the company's CTO.
- Oversaw the development of an event management platform that tracks activities and rewards users with points for completing tasks.
- Contributed to the building of RexC4 Academy, a platform for teaching tech skills to community members.
- Managed the development of a blockchain audit system and several other internal Web3 and Web2 tools.

RexC4 – Frontend Engineer

October 2024 – PRESENT

- Built the front-end for the event management platform, academy, and blockchain audit system.
- Developed responsive, cross-device interfaces for all RexC4 products alongside CTO responsibilities.
- Handled performance optimisation and SEO across the company's web properties.

Roburna Official – Social Media Manager

May 2024 – March 2025

- Managed Roburna's presence on Twitter, Telegram, and Medium

- Grew follower count and audience reach through content campaigns and community initiatives.
- Organised AMAs, giveaways, and community events to drive engagement across platforms.
- Tracked performance metrics and adjusted strategy to sustain growth month over month.

D'sPinnacle Dome – Coding Instructor (Tutor)

October 2021 –December 2023

- Taught front-end development to over 150+ students.
- Covered HTML, CSS, JavaScript, and modern frontend frameworks through practical, hands-on lessons.
- Built coding exercises and real-world projects to give students practical experience.
- Reviewed and gave structured feedback on student portfolios and assignments.
